

# STEWARDSHIP EARTH 2008

Come Celebrate With Us!

Sunday, April 20, 2008

12 – 6

➤ UPC Worship Service @ 10:45

Dr. David Young speaking on Stewardship of the Earth

David Young is an internationally renowned space scientist working at Southwest Research Institute and one of the most popular instructors at The SoL Center.

➤ Lunch @ noon (suggested minimum donation \$5)

Brought to us by Green Vegetarian Cuisine (PLEASE RSVP to 732-9927)

➤ Family Friendly Earth Fair @ 12:30 (free & open to the public)

Make wildseed mudballs & bluebird nest boxes, take a biodiversity quiz, plant a tree, and more!

## **An Afternoon at The SoL Center (2:00 – 5:30):**

**Registration requested. \$5/class or \$10/all. Call 732-9927 or email [upcsa@upcsa.org](mailto:upcsa@upcsa.org).**

### **2:00 – 3:00 p.m. “*Understanding the Edwards Aquifer*”**

Annalisa Peace, Executive Director, Greater Edwards Aquifer Alliance

Annalisa will discuss how the Edwards (a karst aquifer) was formed, how it works, why it is so vulnerable, and what we can do to help protect it. She will use an aquifer model for demonstration purposes, and have great materials to share with us, including a gorgeous and informative map of the Edward Aquifer region.

### **3:00 – 4:00 p.m. “*Going Green without Seeing Red*”**

Tenna Florian, AIA, LEED AP, Lake/Flato & Associates

Stephen Colley, AIA, LEED AP, Metropolitan Partnership for Energy

Tenna will give a big picture view of the Green Building movement and among other things, discuss how it has taken shape with the LEED\* certification process, in which she is an accredited professional. Stephen, also a LEED accredited architect, will share his expertise on ways to make existing structures more environmentally sustainable and the economic benefits of doing so -- information each and every one of us needs to know, understand, and most importantly, act upon.

\* Leadership in Energy and Environmental Design

### **4:00 – 5:30 p.m. “*Love Diminished, Love Betrayed: Obstacles on the Path toward Creation Spirituality*”**

William Greenway, Associate Professor, Austin Presbyterian Theological Seminary

In this session, Bill will discuss how the major trajectories of modern philosophy and science have alienated us from a deeper connection with the earth, the creation.

## **All Are Welcome!**

**Please RSVP for lunch (we need a head count!) and register for SoL classes.**

**Call 732-9927 or email [upcsa@upcsa.org](mailto:upcsa@upcsa.org)**

Event sponsored by University Presbyterian Church and The SoL Center.  
300 Bushnell Avenue, San Antonio, Texas 78212 [www.upcsa.org](http://www.upcsa.org)
